

# # Day 6: Deployment Preparation and Staging Environment Setup #

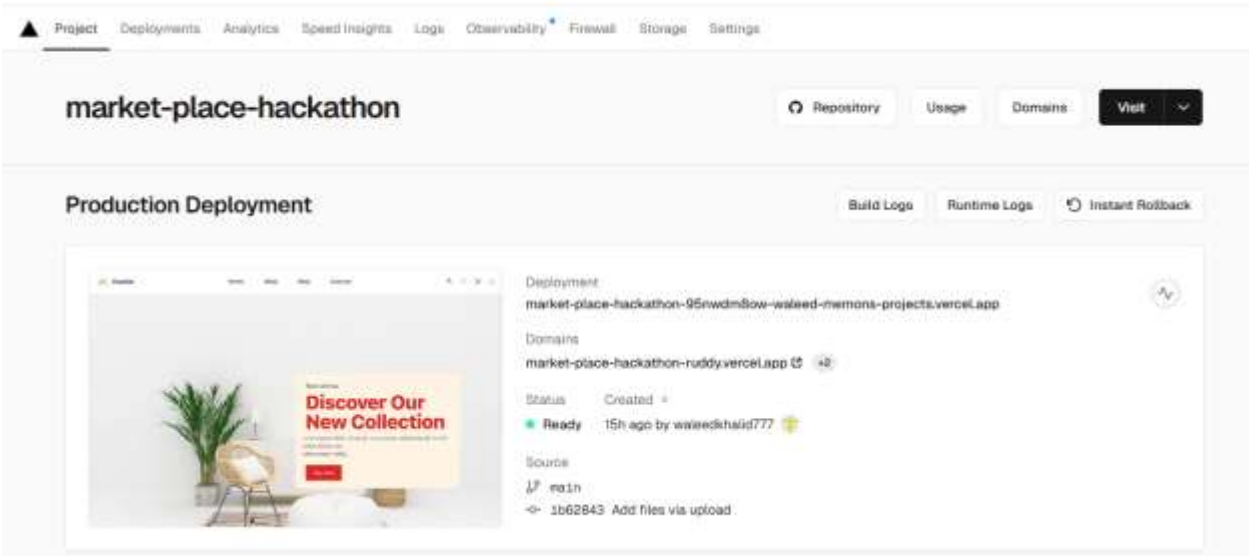

Objective The goal of Day 6 is to prepare the marketplace for deployment by setting up a staging environment, configuring hosting platforms, and ensuring a production-ready application. This process involves deploying the application in a production-like setting, conducting thorough testing, and organizing all project-related files.

## Test report

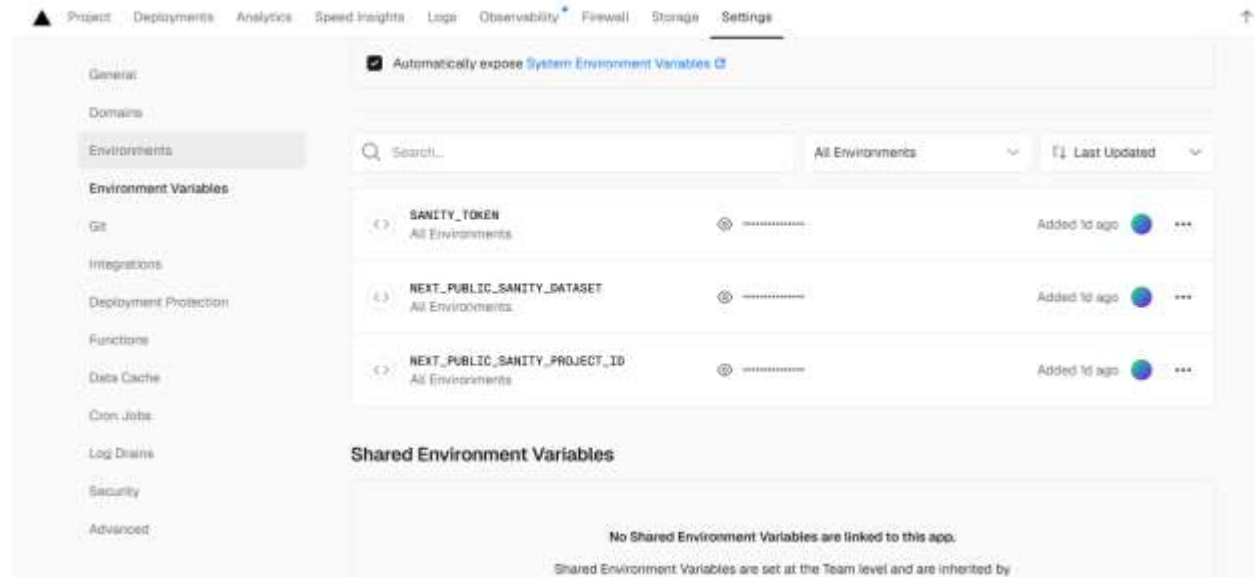

Test Case	Test Case	Test Steps	Expected	Actual Res	Status	Severity L	Assigned	Remarks
